PRESIDENT'S MESSAGE

As we think about the Oak Ridges Trail Association there is a tendency to view trail building and multiple led hikes as our sole undertakings. We also engage regularly with municipalities, forest authorities and other groups in terms of our trail and its connectedness to other trails.

For example, we are in talks currently with staff from the Toronto Regional Conservation Authority (TRCA) and Rouge National Urban Park, as well as the folks at Green Durham planning and laying out connections from Rouge Park Trails to the ORTA main trail and loop trail in the Goodwood Glasgow area. When this comes to fruition there will be linkages allowing hikers to travel all the way from Lake Ontario at Rouge Beach to our trail and east and west from there. An exciting project! More details will be available when planning is further along.

We are also engaged with TRCA in planning and developing the Macleod Trail Linkage Project in the Oak Ridges Corridor Conservation Reserve (ORCCR) in Richmond Hill. In addition we are working together on the Cycling on Secondary Trails Project in the same area.

I recently represented ORTA in an input session organized by Rouge National Urban Park (RNUP) for partners of the park, of which we are one, providing commentary and direction to the Park's long-range plan.

We have also been active with Metrolinx and the Town of Aurora providing our viewpoints regarding trail connections vis-à-vis the Metrolinx track expansion and the need for a secure crossing allowing the Trail to cross the railroad tracks safely.

All of these projects are in early stages and we will provide additional details as progress is made.

On another note, our dedicated hike leader coordinator Malcolm Haan has recently released his summary of hikes from summer and fall of 2017:

- 22 hike leaders lead 177 hikes.
- The 177 hikes were attended by 2,094 hikers.
- Those 2,094 hikers walked a total of 18,631 km.

Our organized hike program is one of the jewels of our association,

something that we are very proud of. The next time you take part in a hike remember to thank your leader, for they make the hikes go. If you see Malcolm out on the trails thank him sincerely too. He undertakes considerable work in the background to ensure hike leaders are kept up to date, hikes are listed accurately and hazards noted.

For an organization with one part time employee and in which the many tasks needed to keep us operational and growing are undertaken by volun-

teers, it is astounding to see what we accomplish.

I look forward to seeing you out and about the trails as the season moves from the many layers of winter hiking to spring.

Kevin Lowe,

President, Oak Ridges Trail Association

RYERSON – UNIVERSITY OF TORONTO TRAIL STUDY

Brian Millage

The Oak Ridges Moraine Trail (ORMT) is about 260Km end to end with another 40Km of side trails. This is a trail for all seasons with many connections to other trails along the Moraine. Wilma and I were recently part of an outing with university students studying landscape architecture and trail connections. The instructor for these students suggested an on-site visit to the Goodwood Tract (TRCA) and Glasgow Forest (the future northern gateway of the Rouge National Urban Park operated by Parks Canada).

Two First Nations Elders joined the group sharing their perspectives regarding respect for the environment, contact with the land, flora and fauna, and the sacredness of water. The message was 'always give thanks and keep in mind that we must protect these resources for our children's children and beyond.' I like to think that all of us encourage the same respect and beliefs for the environment.

The choice of Goodwood and Glasgow for this study was particularly appropriate at this time as ORTA is participating in an exciting new venture – the joining of the Oak Ridges Moraine Trail and the new Rouge National Urban Park. Discussions and planning are now underway to create a northern gateway to the Rouge Park where it meets our trail at Glasgow/Goodwood, just east of Stouffville. ORTA is participating in this process along with TRCA, Parks Canada, and Green Durham.

ORTA SPRING 2018 HIKE SCHEDULE

PLEASE TAKE NOTE OF HIKES LISTED ON THE ORTA WEBSITE. OCCASIONALLY THERE ARE ADDITIONAL HIKES OR CORRECTIONS ADDED AFTER PRESS TIME.

- Remember that it is your responsibility to dress appropriately! Hat, gloves, gaiters, umbrella, may be needed. Wear sturdy hiking boots appropriate to changing precipitation and temperature; no cotton socks, use a liner sock plus a hiking sock. Dress in layers as conditions can vary widely within a short time or distance. Waterproof boots, jacket and pants recommended. Hiking poles optional.
- Keep these in the car: plastic bags for muddy boots, spare footwear, spare dry/warm clothes.
- Drinks and snacks recommended for all hikes and lunch may be needed for longer ones.
- Dogs: It is the hike leader's decision whether to allow dogs on hikes. If not specified in the hike listing, call the leader beforehand. Many landowners regulate that dogs shall be on leash. ORTA hikers and leaders will adhere to this policy. In all cases, dogs are expected to be well mannered and under strict control by their owners, out of consideration and safety for fellow hikers, other trail users and the environment.
- Winter Months: Late fall, winter and early spring are characterized by variable and unpredictable weather and trail conditions, in particular ice and snow. Conditions on the trail will often vary significantly from those outside your front door. For hiker and group safety, based on trail conditions, hike leaders may require participants to use icers or snowshoes to participate in the hike. If concerned, contact hike leader beforehand.
- In case of inclement weather, call the hike leader to confirm the hike.
- Be aware that parking areas are public places; refrain from keeping ANY valuables in your car.

HIKERS SHOULD ARRIVE AT LEAST 15 MINUTES BEFORE THE ADVERTISED HIKE TIME.
