## PRESIDENT'S MESSAGE

Some of you may have wondered why you haven't seen me out hiking or leading a hike in some while. Actually I led my last hike last June and have not hiked at all since that time.

I have been waiting for a surgery time for a knee replacement. As a young man I took part in many sports, including football where I tore the cartilage in my right knee resulting in its removal. All my adult life I have had bone-on-bone

contact and over the years have worn out the knee joint.

My surgery was January 21<sup>st</sup> and I am on the mend looking forward to getting out both as a hiker and a hike leader soon. Look for me to post hikes beginning in April if all goes as to plan.

I am enthusiastic about my new-found mobility and look forward to enjoying the outdoors once again. It is amazing how much I have missed the experience and the camaraderie of hiking.

Not being able to enjoy the outdoors left me with time to think about what I was missing. I did some looking for benefits of being in the out-of-doors and came upon these research backed attributes.

Walking in nature could improve your short-term memory.

Being outdoors has a demonstrated de-stressing effect.

Spending time outside reduces inflammation.

Enjoying the outdoors helps eliminate fatigue.

Outdoor experiences may help fight depression and anxiety.

Being outside may protect your vision.

Spending time outside lowers blood pressure.

It could improve your ability to focus.

You may perform better on creative tasks after being outside.

Forests also might boost your immune system.

*Business Outsider April 2018*

So get out there and enjoy yourselves!

## TRAIL TALK IS MOVING TO ONLINE DISTRIBUTION!

### HERE ARE THE DETAILS BEHIND OUR TRANSITION PLAN.

Last November, a survey went out to all members with an email address and phone calls were made to all members without. To our delight, 32% of our membership shared their thoughts on the subject leading to our next step.

I'll be using the terms soft and hard to refer to the different forms for the newsletter. Soft copy means the digital or electronic form while hard copy is the physical or tangible form.

The Spring 2019 Trail Talk is going out as usual in hard copy to share this message because the change will begin with the Summer 2019 edition.

The Summer version will go out via email to those members for whom we have an email address on record. This is called the Trail Talk Soft copy. Hard copies will continue to be mailed to those members who require it.

Any member receiving a soft copy can opt to go back to receiving a hard copy by updating their profile to reflect that choice just as they do with other e-mailings.

The default going forward for new members will be a soft copy of Trail Talk which will include a link to the hikes so that the most current information is in one place. This will provide more current information as the hike listing changes often when Hike Leaders add new hikes or make adjustments to their listings.

Please add us to your safe senders list to avoid Trail Talk being mistaken for spam or junk.

This change serves several purposes, not least being that the funds used to publish and mail hard copies can be redirected to trail improvement, but it will also make us more "resource thoughtful" by using less paper and ink.

Thanks to all the participants who contributed their time and shared their insights to help the Board reach a consensus on this significant change in operations.

# ORTA SPRING 2019 HIKE SCHEDULE

**PLEASE TAKE NOTE OF HIKES LISTED ON THE ORTA WEBSITE. OCCASIONALLY THERE ARE ADDITIONAL HIKES OR CORRECTIONS ADDED AFTER PRESS TIME.**

- Remember that it is your responsibility to dress appropriately! Hat, gloves, gaiters, umbrella, may be needed. Wear sturdy hiking boots appropriate to changing precipitation and temperature; no cotton socks, use a liner sock plus a hiking sock. Dress in layers as conditions can vary widely within a short time or distance. Waterproof boots, jacket and pants recommended. Hiking poles optional.
- Keep these in the car: plastic bags for muddy boots, spare footwear, spare dry/warm clothes.
- Drinks and snacks recommended for all hikes and lunch may be needed for longer ones.
- Dogs: It is the hike leader's decision whether to allow dogs on hikes. If not specified in the hike listing, call the leader beforehand. Many landowners regulate that dogs shall be on leash. ORTA hikers and leaders will adhere to this policy. In all cases, dogs are expected to be well mannered and under strict control by their owners, out of consideration and safety for fellow hikers, other trail users and the environment.
- Winter Months: Late fall, winter and early spring are characterized by variable and unpredictable weather and trail conditions, in particular ice and snow. Conditions on the trail will often vary significantly from those outside your front door. For hiker and group safety, based on trail conditions, hike leaders may require participants to use icers or snowshoes to participate in the hike. If concerned, contact hike leader beforehand.
- In case of inclement weather, call the hike leader to confirm the hike.
- Be aware that parking areas are public places; refrain from keeping ANY valuables in your car.

**HIKERS SHOULD ARRIVE AT LEAST 15 MINUTES BEFORE THE ADVERTISED HIKE TIME.**

# RAVENSHOE/BROWN HILL TRACT TRAILS

– submitted by Malcolm Hann

After my last Brown Hill hike in mid-November Peter Attfield drew my attention to an article on the DMBA website about the history of the trails in Brown Hill, titled: "Ravenshoe Trail Work and History" For several years I've lead ORTA hikes on these trails and wondered about the trail names. The next time I hike here I plan to look for and identify the points of interest. Few ORTA hikers frequent the Brown Hill Tract; perhaps in reading the article more ORTA hikes would challenge themselves to hike this area. I recommend one doesn't even think about hiking there May through September because the bugs are ferocious (It brings me out in lumps just thinking about a midsummer hike I had there several years ago).

Reprinted with Permission here is an excerpt:

"...Chris Reid - one of the Ravenshoe originals put together this history of Ravenshoe. Fun times - I am sure many of you remember the double teeter-totter.....In 97, the biggest challenge yet, build the longest, most technical trail to date skirting three swamps in the centre of the east side. The name played off the established playground handles of Stinky and Cry Baby. It was a tough go to ride and no one in our group was able to do it without 'clipping out'. Several 'skinnies' were built to get over the swamps and logs, one being a double teeter-totter that led to many a soaker. The Big Meany is easier now and known only as Meany to newer riders at the Shoe but there was a time it had the reputation for teaching technique and punishing mistakes.

This is where the naming gets a little confusing. We needed to connect Stumpy to the bottom of One Gee thereby integrating the Big Meany loop. We worked some magic along both sides of the double track and a new loop was made on the west side bordering the BellRinger south of Stumpy named 'Skunk' after one of our dogs had an unfortunate incident there. Skunk terminated at the double track directly across from Big Meany and One Gee completing the 'whole loop'...."

Malcolm Hann leads hikes over the Brown Hill Tract from time to time. Check the hike schedule regularly for updates.

To read the whole DMBA article please send an email to [info@oakridgestrail.org](mailto:info@oakridgestrail.org) to the office quoting Ravenshoe in the subject line and Michele will email it back to you. DMBA has recently upgraded their website and this article is not currently available on it.

There is a section of the Oak Ridges Trail in the Second Wildlife Preserve posted as the 'Orchid Trail'. It's extremely rare to see wild orchids in bloom. Taken last June, a group of Monday hikers trekking the Second Trail and beyond were fortunate enough to see blooming Orchids.

### April 18, 2019 ORTA AGM

David Phillips, of Environment Canada, will be giving us an update on what is happening with the weather. Dave last spoke to us in 2012 and much has been happening in changing weather patterns since that time. As always, David is a knowledgeable and entertaining speaker talking on a subject that is dear to the hearts of all our outdoor folks.

### May 16, 2019

Terry will speak to us about his work tagging Monarch Butterflies here along the Lake Ontario shoreline. Terry is very knowledgeable and excited about his work with these beautiful creatures so I am sure many of you will want to attend to hear what he has to say. He will also be reporting to us on the latest feedback from Monarch flights to Mexico this year. I know how many of you have searched for them as we hike along our trails hoping to see Monarchs and were encouraged by their increased numbers this past summer.

## MEET YOUR NEW HIKE LEADER, JANE HU

It was my fortune to have found and joined ORTA in 2013. Jerry and I started with slow pace hikes, then moderate, even tried some fast hikes. We met many lovely people and learned a lot from hike leaders such as Wilma, Brian and Stan. With the thought of giving

back after I become more active physically and spiritually as the result of the regular hiking, I joined the hike leader training program in 2017, so I can find more opportunities to participate and lead the hikes while Jerry is happy to be a sweep. This is our contribution to the community and we hope more people get to know ORTA and share the trails. Come, join us and have fun!
